The Wizard of Oz, a musical adventure story, full of quietly, fast-moving action, fun and fantasy is coming to Belle Glade on Saturday, Jan. 27th, sponsored by Junior Women's Club and performed by the world-famous NICOLIO MARIONETTES.

A delightful adaptation of the American classic by Frank Baum, the NICOLIO Studios in New York City, in producing this play for the Marionette stage, have created a theatrical gem!

All phases of this production, including hand-carved, specially animated Marionettes, colorful costumes, elaborate settings, fantastic stage effects and a tuneful musical score was coordinated to produce a rich and entertaining experience for children of all ages.

Master-puppeteer, Nicholas Coppola heads a staff of artists who carved the Marionettes. Under his inspired supervision, no detail was spared in bringing to life the brightness and enduring charm of these well-loved characters of the Baum classic.

The Grand Worthing Advisor Pam Ursey congratulated the officers and wished them good luck. Mrs. Vann, Grand Deputy, also congratulated the officers and stated how proud she was to have an assembly that had 10 girls with perfect attendance.

In closing the Worthing Advisor Carol Betts thanked her installing officers. She then invited the guests to return after the formal closing for refreshments.

The table was decorated in blue and white. The cake was white decorated with blue roses and the centerpiece was formed of blue carnations, the W.A.'s favorite flower and color.

Weekend guests of Mr. and Mrs. Leland Plank and children Flint and Linda were Mr. and Mrs. George B. Bryant, Mr. and Mrs. George B. Bryant, Jr. and son David, Roy Dennis Bryant and Miss Mary Davis all of Sylva, N. C.

They also renew friendships with others from Michigan while here.

Well-known scenic designer, William Piskin, fresh from a string of Broadway successes has brought his considerable talent to this theatre medium. He has designed the sets for this production on the illustrations in the original OZ book, which were done in the style of Art Nouveau.

NICOLIO MARIONETTES is fortunate to have as musical director, Bruce Haack, noted composer, who wrote a bright and lively musical score to accompany the dancing Marionettes. Mr. Haack's new recording, "Dance, Sing and Listen" was chosen the "Best Record for Children," by one of the leading New York Magazine. ## SENSING THE NEWS

By Thurman Sensing

EXECUTIVE VICE PRESIDENT  
Southern States Industrial Council

### Allies And Cost-Cutting

As the outlook for the Vietnam war in 1968 is continued heavy fighting, costing huge sums to the American taxpayer, it is essential that the United States find new ways of limiting defense expenditures in regions other than the Far East. One way to do this is to make better use of existing facilities and to develop new ties with other anti-communist states.

In this connection, Americans have to consider the defense problems arising in the Indian Ocean as a result of growing Soviet sea power. The Soviet Union, long considered a land power exclusively, today is turning to the sea. It has a big naval task force in the Mediterranean and has even greater naval ambitions in the Persian Gulf and Indian Ocean areas. Behind the Soviet moves to the seas is a desire to manipulate world commerce, to capture control of the oil resources of the Middle East and to dominate Africa.

The United States cannot afford to ignore Soviet communism's power drives in these areas. Yet the question arises: where will the U.S. find the financial resources to take new military commitments in the Indian Ocean and adjacent areas of Africa threatened by communist pressures?

The answer to this question may lie in making better use of diplomacy and in accepting friendship that has been offered and rejected in the past. A case in point is the willingness of the Republic of South Africa, a powerful anti-communist nation, to assume burdens of defense in the Indian Ocean area.

With a strong economy and a currency based on gold, South Africa is in a position to devote extensive resources to the curbing of communism in and around Africa. With the new traditions of the British and Dutch — two great seafaring peoples behind them, the South Africans have the know-how to develop a sizeable fleet to deter communist ambitions in the Indian Ocean.

Yet the United States has not taken advantage of the offer of South African friendship. Failure to take advantage of it already has cost the American people a lot of money. Ironically, though South Africa is staunchly anti-communist, the U.S. government refuses to sell military equipment to the Republic. This refusal is all the more absurd administration's insistence that the U.S. should trade with the communist countries of Eastern Europe and "build bridges" to those violently anti-American nations.

Britain's socialist government, which has brought England to the door of economic ruin, likewise persists in refusing to sell warships and jets to South Africa although Englishmen need the jobs the de-

## LOCAL BUSINESS

The business research bureau of a Southern university has completed a study which supplies some of the answers to the problem of out-of-town shopping. Shoppers were asked why they went to distant centers to buy Christmas gifts. Numerous reasons, some of them vague, were given. Summarized responses include:

1. Attracted by early promotional sales in regional newspapers, as early as two months before Christmas.
2. Presumption that prices as advertised in regional centers would be lower than non-advertised local prices.
3. Assurance that specific products desired would be available.
4. Hope for greater variety in selection.
5. Excuse to get out of town.
6. Trip made for other reasons and shopping was done incidentally.
7. The airman's convenience of shopping from catalogs and mailed newspapers advertising.
8. Lack of information available.

Before his arrival in South-east Asia, he was assigned at Lowry AFB, Colo.

The airman is a 1965 graduate of Lake Shore High School.

Airman Webb's wife, Alice, is the daughter of E. Coreton.

## Too Late to Classify

By Russell Kay

Everybody wants more money, school teachers, policemen, firemen, nurses, garbage collectors, and in the face of steadily rising living costs to get with the steadily shrinking value of the dollar, indicates that they are more than justified in their demands.

Thousands of retired people who scrimped and saved for old age are now finding that the dollars they saved are not sufficient to meet their needs. Widows are finding that the insurance they thought of as their life's savings has shrunk in value far short in meeting the cost of living today.

The family budget, like the national budget is a way out of balance, but unfortunately the family budgeter cannot borrow the money he needs nor can he tax his neighbor for funds to pay his bills.

While the bright economists tell us we have nothing to worry about, the national economy is booming, unemployment is lower than it has ever been and the goose hangs high, the humble citizen finds his philosophy hard to understand. His taxes continue to mount — city, state and federal. He used to mail a letter for two cents now he is called upon to pay six cents for the same service and is informed in the red. (Postal employees have to eat too.)

Political leaders and their college professor economists contend that we can spend ourselves into prosperity and the thought of curtailed government expenditures is ridiculous. We must spend more than we take in to keep the economy booming. What difference does it make if the national budget is a few billion dollars out of balance, since it is just money we owe ourselves.

It appears that the President, his advisors and Congress still feel that the only road to national prosperity is to spend, spend and spend, borrow and borrow and borrow.

While the war in Vietnam has been necessary and may be necessary and the Great Society program a worth while effort, along with the usual congressional bondages, designed to benefit candidates for re-election, the average citizen who must pay the bill is beginning to wonder where it will all end and which end of the stick he will be holding when the bottom drops out.

Before long a new group of political aspirants will be seeking your votes with promises of faster growth, and stable prices. Maybe if we make an effort to elect a few level-headed, conscientious men and women to public office it might help. Maybe if we were to concentrate on balancing the budget — local, state and national — it would be a step in the right direction.

## County Commission Meeting

A new operator for Glades Airport was authorized Tuesday by County Commissioners.

The board, after learning officially from Director of Airports Frank Sakser that "somebody of an emergency" situation had developed when Belk Aircraft gave up its lease agreement with the county at the Glades facility after 17 years, approved a one-year trial lease with Owen H. Gassaway, Manager of Florida Airmobile, Inc., which operates the county's Lantana airfield. Gassaway agreed to pay the county five per cent of gross revenue at the airport between February and Belle Glade, excluding sales and leasing of air-traffic.

Sakser, noting that another offer had been made to run the Glades Airport, recommended Gassaway on the basis of previous experience. E. W. (Bud) Weaver, commissioner from Lake Harbor, made the motion to employ the suggested firm.

Gassaway, who attended the regular weekly meeting, told the board he would begin operations "immediately."

Sakser said Belk Aircraft moved out on New Year's Day and commissioners agreed that a lease, which automatically would have been renewed to Dec. 31, 1969, thereby was "terminated by abandonment."

The county will receive a monetary refund from the noted Commission Chairman E. F. Van Kessel.

Weaver also had submitted an agreement between the county and South Bay Growers Inc., in which the firm holds the county "harmless" for its \$1 million plant, housed at the Glades Airport, until a new airport operator assumes duties. Sakser said Wackenhut guards had been employed to watch airport property between 6 p.m. and 6 a.m. since Jan. 1. Gassaway now will be responsible for security measures.

In other business, commissioners — Officially invited five county architects to design projects specified in a \$7 million expansion program. The men will attend a special meeting soon with the board and other county officials. Selected architects are John Marion of Palm Beach for the downtown courthouse expansion costing \$4.8 million; Rudy Arsenault of North Palm Beach for a \$300,000 North County satellite office building; Kenneth Jacobson of Delray Beach for a \$400,000 South County satellite; Chester Cone of Belle Glade, a \$75,000 addition to the Glades Office Building; and Norman Robson of Palm Beach, an \$875,000 expansion of the county jail in West Palm Beach.

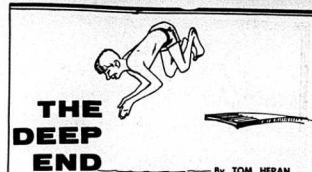

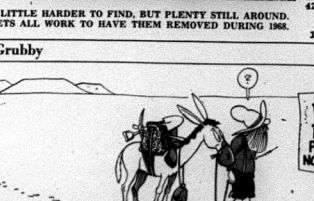

Agreed to supply space for two 200-bed hospital units which federal authorities have promised the county's Civil Defense. Such units are stored for use in the event of enemy attack or catastrophic natural disaster. The county has two units now, one stored in the Glades and the other in West Palm Beach.

## The name game . . .

If your name was Irving T. Gulpnacher you might be very sad and wonder what you did to deserve such a name. There are probably very few Mr. Gulpnachers in the world, but certainly those that do exist have a name that few people forget and when they write it down they try to spell it correctly.

Let's look at the other extreme suppose your name is John Jones, that's an easy name to remember and very easy to spell. Now what if your name was Thomas J. Heran would you think that was a difficult name for people to remember and spell, well it is.

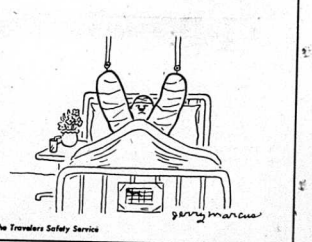

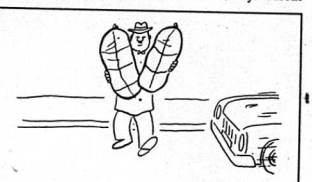

You wouldn't believe the names that appear on correspondence addressed to me Thomas Heran, Tom Herron, Thomas J. Herneing of course I don't mind too much when they only miss by one letter, in fact I think I'll award a trophy for coming that close.

What has happened to the thoughtful people who tried to spell names correctly before they addressed the letter, it seems they are gone forever. Of course the misspelling of names ranks only slightly ahead of not remembering names and both are equally offensive.

How many times have you avoided someone because you couldn't think of his or her name, then after being caught standing there stuttering and stammering and finally introducing the person as Mr. or Mrs. "Ugh" "Guh" "Hum." Of course you feel foolish because you are foolish and the only one to blame is yourself.

It takes little time to try and find the correct spelling of a name, and if you meet someone on the street and have forgotten their name and let them repeat their name for you. A person's name is very important to them and I think we all should try harder to spell names correctly and remember them.

## Juniors Sale Magazines

The annual magazine drive of the Junior Class was held last week. Reid Sanders of Curtis Circulation Company talked to the group on January 5.

Although Mr. Sanders told the readers, whistling, heckling and ear calling class that unless the first day sales beat last year's first day sales of \$2,577 the first day sale of \$2,021, first day sales leader was Barbara Ward, who sold \$129 worth of subscriptions during the first weekend.

Many changes have been made in the Curtis Plan over the past year. The Juniors have a chance to sell eight different combination orders. Last year only two combination orders were available.

No giant stuffed golden rams were offered to the five top sales people this year as were offered to the Senior Class. Instead, students who sell \$25.00 in subscriptions get a cloth patch with a golden ram. Sanders offered many small "green" stuffed animals to reward students for high sales. Team captains for the sale were as follows: team 1, Tommy Altman and Tommy Bryson; team 2, Brenda Buckner and Pat Burkett; team 3, Aggie Gressinger and Janis Chaney; team 4, Melissa Hill and Terry Lee; team 5, Jackie Kirchman and Debby Lane; team 6, Judy Nixon and Barbara Richmond; team 7, Paul White and Charlie Scheffer; team 8, Suzanne Wilkinson and James Winchester.

## Rank Performs

Last Friday Jack Rank entertained the high school audience by presenting a one man performance of a Shakespearean play.

Rank has in his repertoire the plays, "The Merchant of Venice" and "The Taming of the Shrew." He portrays the characters in the play and does numerous costume changes without breaking the continuity of the play. The sound effects back up the performance to make it outstanding.

He has given over ten thousand performances all over America and has taught at the University of Nebraska. Eight Broadway plays are to his credit also.

The entire student body enjoyed the unique and educational approach that Rank used to present Shakespeare. The program was arranged by the Student Body Assemblies, Beta Club and F.T.A. sponsored the assembly.

Andy Ballard, Student Council President, has led the Student Council into many projects including buying new flags for all of the classrooms. Andy was born in Wauscha, Florida on August 2, 1950. He later moved to Clewiston and then to Belle Glade.

He has played football for the Rams for three years and basketball for two although he is not playing this year. He is also a member of Interact.

Andy plans to attend Palm Beach Junior College next year and later Florida Atlantic University. He hopes to get a major in oceanography. Before he gets down to serious study he hopes to travel all over the United States this summer with Terry Mann.

When asked how he felt the first time he addressed the entire student body he said, "The first time I was nervous and looked at the floor, but now I enjoy it."

His hobbies are skiing, hunting, riding around on Sun-dogs, but his favorite hobby is playing his guitar. He likes yellow and black together and enjoys driving his jeep.

Mark W. and Quen W. did we see you turning RED at the Fair last week? It sure couldn't have been the ride!!!!

The Library seems to be filled with nasty boys whose remarks are all aimed at Pam W.

What is this we hear that you were doing on the day that term papers were to be handed in. Brenda B. and Terry L.

It sure was a TIGHT SQUEEZE at the half time last Tuesday night wasn't it Lois Donna C., Billy B. and Wayne P.?

We hear there is a new baby at the Smith house now Auntie Kathryn. Isn't that right?

Steve M. that broken collarbone must come from good COORDINATION or big feet.

So you're hitting it off with red-headed women now Eddie P.?

Suzanne W. what's this we hear about you getting a ticket not only for speeding but for driving without a license!!!!

## Bobcats Beat Tigers

On Friday night, January 12, 1968, the Mighty Bobcats played host to the Dunbar Tigers of Fort Myers in Lake Shore's gym.

The game opened with the baby Bobcats ("B" team) leading points to the score board. Glen Lettingham, Charles O'Brien, George Terry, and Clifford Wiggins, backed up the scores, while Cotton Wise and Lamar Powell (alternating each other at guard position) man-handled the backboard and rebounds.

The mighty unpredictable Glen Lettingham scored 34 points to lead the baby Bobcats to a victory of 80-45.

After the baby Bobcats collected another victory, the Mighty Bobcats ("A" team) took over the court, although the Dunbar Tigers led during the first quarter and tied 32-32 at the end of the second quarter. The Bobcats still had faith in themselves.

After halftime the Bobcats entered the game scoring points in just about every corner of the gym. Joe Fason and Johnny Mack dribbled magnificently from the front of the court. Charles Walker and Bobby McCawhain rebounded and popped from the corners, not to mention Curtis Edwards popping from everywhere.

Showing great ability to play controlled basketball, our all time favorite, Charles Walker score 15 points to lead our boys to a 75-57 victory.

## Education Is Valuable

Education includes all the ways in which one person deliberately tries to influence the behavior of another person. Behavior may include knowledge, skills, habits, values, and attitudes. Formal education includes organized instruction given by teachers in such institutions as schools and universities. Informal education involves learning from people and agencies whose primary purpose is something other than organized instruction. These include the family and other social groups, as well as newspapers, television and movies.

Intellectual discipline has different meanings through the years. But it has usually meant that schools have tried to teach students to think and to reason things out, rather than simply to rely on their guesses, desires, or emotions.

When unexpected guest drop in, try this quick and easy recipe: cut any kind of bread that happens to be in the house into pieces, spread butter and mustard, herdshead or a hot sauce on the bread; add any kind of cheese that you have on hand and sprinkle with paprika or oregano; and pop under the broiler for about three minutes. It's a hearty treat for your favorite beverage.

**THE THREE C's**  
Q. I think that I have nice clothes but I never seem to look well dressed. How can I have that Calm, Cool and Col-

leeted look that some girls have instead of looking messy? A. You may have very nice clothes, but how well do you take care of them? Do you periodically go through your wardrobe to check them, buttons, snaps, spots, pressing and cleaning? How about accessories? Are your shoes polished and clean? Lingerie neat and in good condition? And most important of all do your clothes fit you well? Always check a full-length mirror before leaving home for a long, lengthy, last minute check. By doing this you will conquer the three C's which are the Cool, Calm, and Collected look.

## Letter To Student Body

TO: The Lake Shore Family  
FROM: The Student Council  
Curtis Lee Pierce, President  
SUBJECT: Suggestion Box

From past experiences it has become evident that the council has not sponsored an activity that was of a great deal of interest to the majority of the student body. We mainly take this attitude because of the poor attendance at our recent affairs. Due to these circumstances, we have decided to give you (the student body) the opportunity to make suggestions as to the kinds of activities in which you are interested.

Suggestions submitted will be given consideration each day by a special committee, and one will be chosen as the suggestion of the day. At the end of the week one of the five will be chosen as the suggestion of the week. Names of daily and weekly winners will be placed on the council's bulletin board. The weekly winner will have the honor of wearing the "Suggestion of the Week Pin."

This project will begin Monday, January 15, 1968. The box will be placed under the Council's Bulletin Board. All suggestions are to be submitted in sealed envelopes. Suggestions not submitted in this manner will not be considered. Suggestions may include student's name, grade and section, and home room number.

Years for a Better Student Council

## Charles Walker Signs with A&M

Lake Shore's All-State end Charles Walker, who can not only catch the football but run with it, has signed a grant-in-aid with Florida A&M.

Walker, a 6-3, 195 pounder, played four years of football for the Bobcats, and finished his senior year as a first-team choice on the Herald's All-Area squad as well as the Class A All-State team.

"He can make it either as a flanker or tight end because of his running ability," says Lake Shore Coach Willie Irvin. There are a lot of boys who can catch everything you throw them, but not many who can go like Charles after they catch it."

As a Sophomore, Walker was a steady performer on an unbeaten Lake Shore team. But it was his junior year that he really blossomed and teamed with quarterback Charles Haynes to make Palm Beach County's deadliest pass-catching combo, leading the Bobcats to a 9-2 season.

"He's one of those consistent boys," Irvin says. "Each year he just gets better and better."

Har's off to Charles and congratulations from the Lake Shore Family.

## LSH Joins FHSA

Lake Shore, the area's last remaining non-Florida High School Activities Association member, will soon join the groups ranks.

The Neero Florida Inter-scholastic Athletic Association, which now numbers only a few high schools, is due to meet with FHSA Executive Secretary Floyd Lay in Gainesville Saturday to discuss assimilation of the remaining schools by the FHSA.

But, Lake Shore Athletic Director Willie Irvin made it clear his school will be FHSA members next year no matter what the outcome of Saturday's meeting. "We'll join on our own if we have to," Irvin says.
